ALUMINIUM STRIP CEILING (TYPE A & F)

Description

Metal Products Company offers aluminium pre painted strip ceilings in different colors and widths.

We manufacture these ceiling as per required length. This feature makes it ideal solution in many applications and designs.

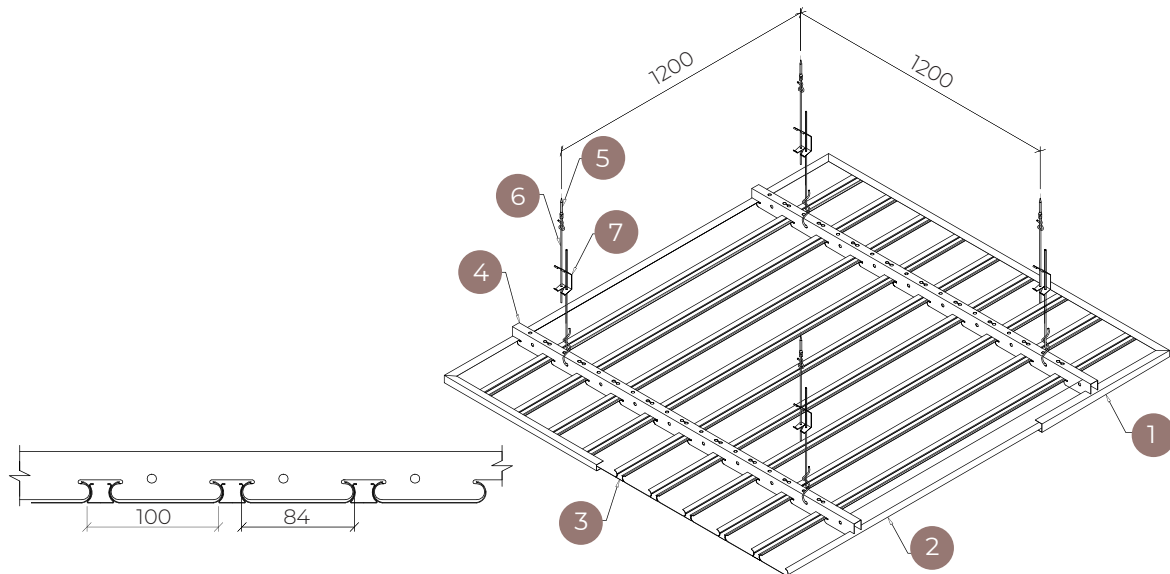

Strip ceiling easily adapt to light fixtures, air conditioning vents and ventilation. These ceilings are durable for moisture resistant areas.

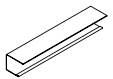

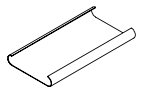

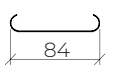

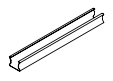

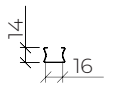

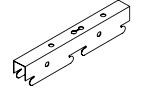

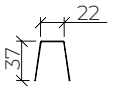

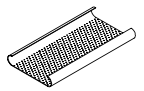

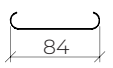

Installation Guide

- Aluminium angle (edge trim) are first fixed to the required ceiling levels
- The hangers (seam) are then fixed to the ceiling slabs at 1200mm c.c.
- Omega / carrier are then attached to the hangers and aligned to the required ceiling level at 1200mm c.c
- The aluminium strip panels are then clipped to the omega.
- Ceiling is finished smooth ready.

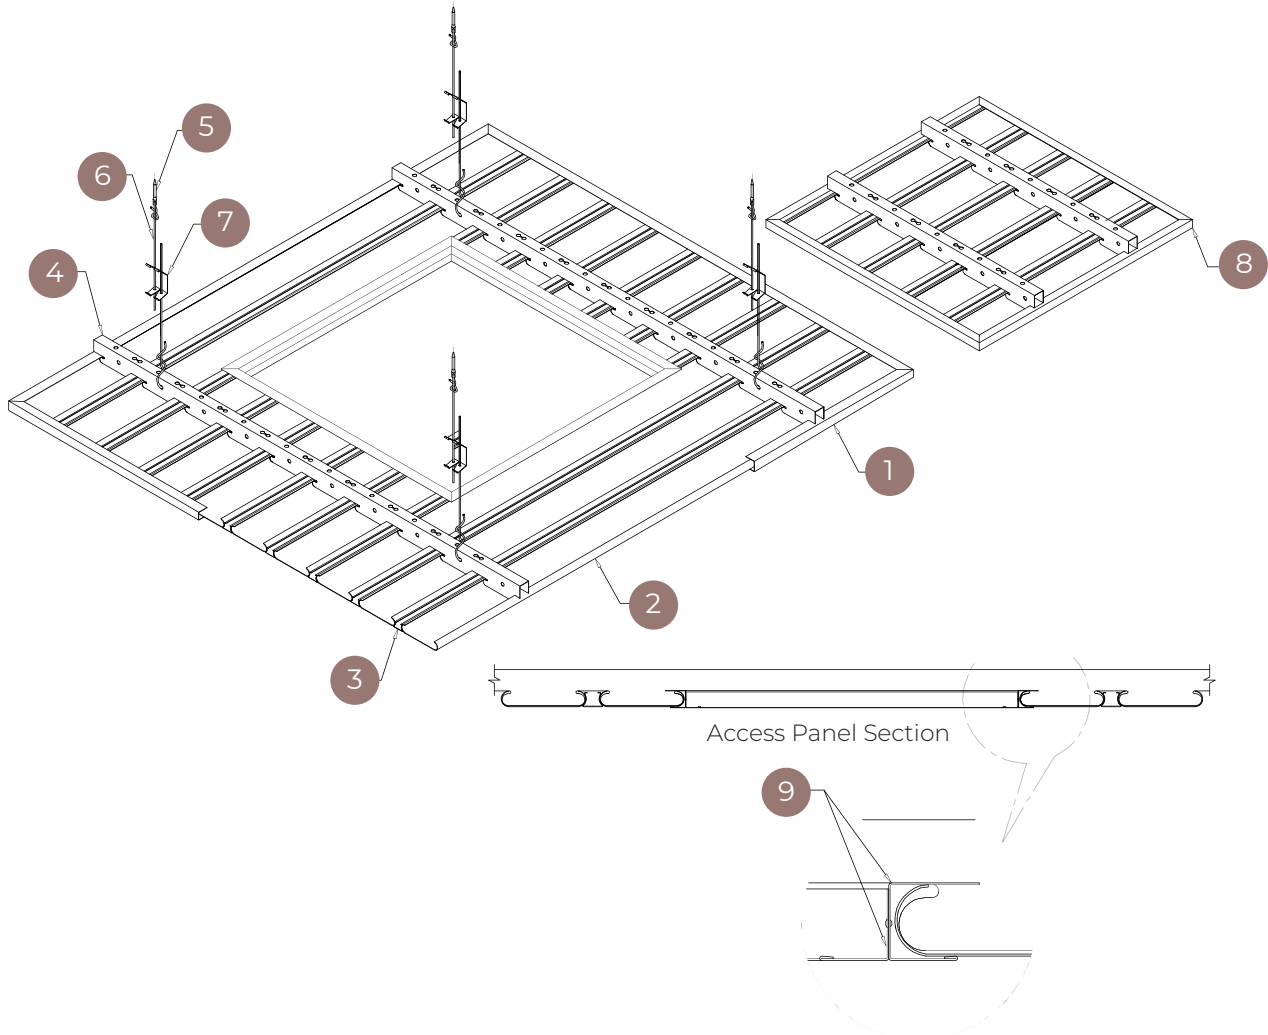

Aluminium Strip Ceiling A84

Item No.	Description	
1.	Alu Angle / Edge Trim	
2.	A84 Panel	
3.	Filler	
4.	Omega / Carrier	
5.	Ceiling Nail	Seam System
6.	Seam	
7.	Double Spring Clips	
8.	A84 Perforated Panel	

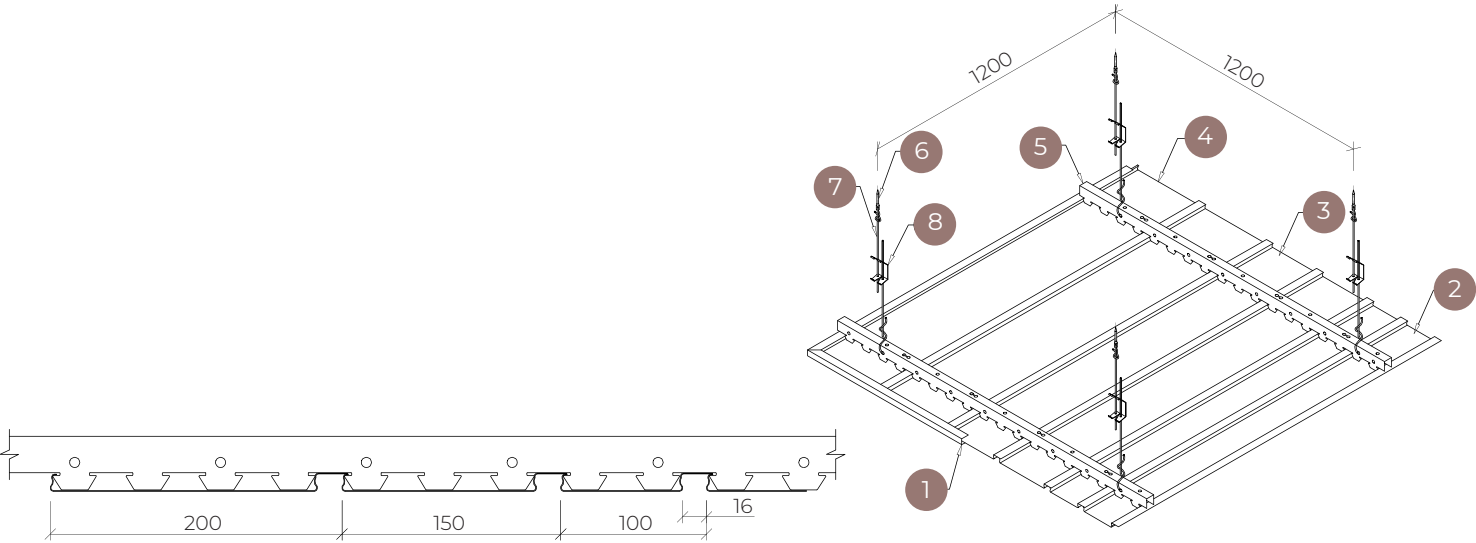

Item No.	Profile	Detail	
1.	Alu. Angle (Edge Trim)		
2.	A84		
3.	Filler		
4.	Omega (Carrier)		
8.	A84 Perforated		

Aluminium Strip Ceiling A84 With Access Panel

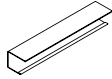

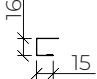

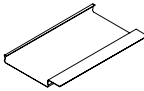

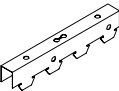

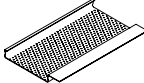

Item No.	Description	
1.	Alu Angle / Edge Trim	
2.	A84 Panel	
3.	Filler	
4.	Omega / Carrier	
5.	Ceiling Nail	Seam System
6.	Seam	
7.	Double Spring Clips	
8.	A84 Access Panel	
9.	Alu Angle / Edge Trim	

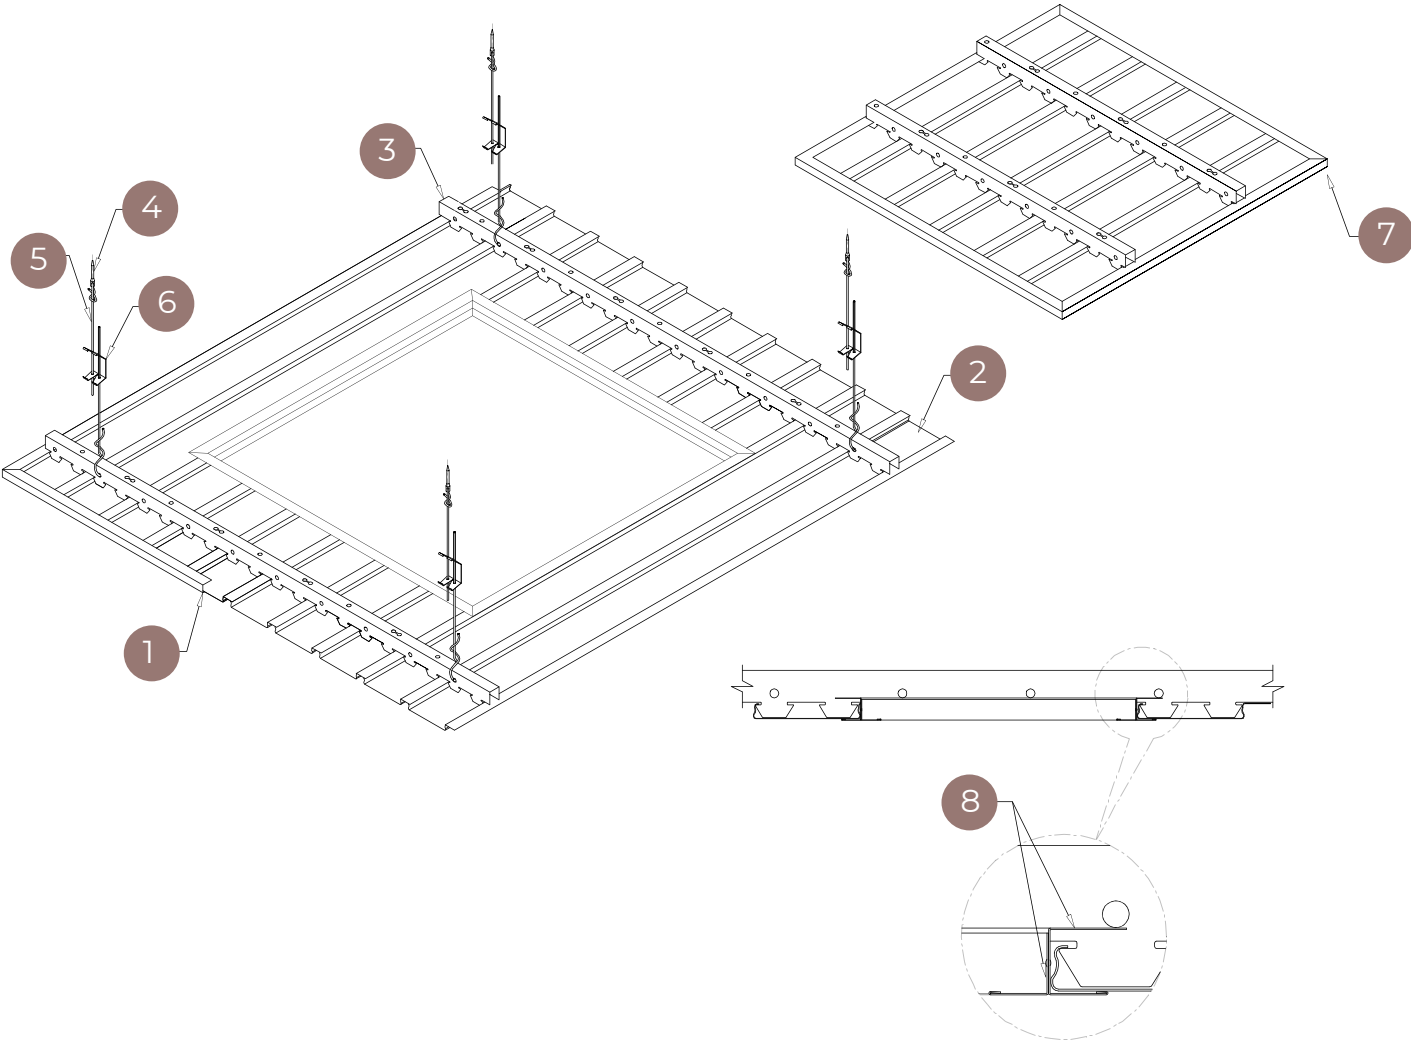

Aluminium Strip Ceiling F

Item No.	Description	
1.	Alu. Angle / Edge Trim	
2.	F84 Panel	
3.	F134 Panel	
4.	F184 Panel	
5.	Omega / Carrier	
6.	Ceiling Nail	Seam System
7.	Seam	
8.	Double Spring Clips	
9.	F Panel Perforated	

Item No.	Profile	Detail	
1.	Alu. Angle (Edge Trim)		
2.	F84 Panel		
3.	F134 Panel		
4.	F184 Panel		
5.	Omega (Carrier)		
9.	F84 / 134 / 184 Perforated Panel		

Aluminium Strip Ceiling F With Access Panel

Item No.	Description	
1.	Alu. Angle / Edge Trim	
2.	F Panel	
3.	Omega / Carrier	
4.	Ceiling Nail	Seam System
5.	Seam	
6.	Double Spring Clips	
7.	F Access Panel	
8.	Alu. Angle / Edge Trim	

Characteristics

Thermal & Acoustic Insulation

- The needs of thermal can be achieved with the application of insulating materials.
- Perforated panels with sound absorbent felt can be used where acoustics properties are required.

Services Integration

The System easily accommodates essential facilities such as:

- The modular light fittings and spotlights,
- Air diffusers of different shapes (linear, square or round),
- Security devices, water sprinkles and smoke detectors.

Advantages

- Easy to install.
- Durability, these strips are provided with high quality paint finish.
- Flexible design options: MPC strips suitable for a great number of applications such as in hospitals, offices, shops, exhibition centers, airports, wet areas, etc. The strips provide an easy access at any point for instant maintenance of services installed above ceiling.

Storage And Handling

- Ceiling components must be stored in a dry clean location.
- Special care must be taken during handling to avoid damages.

Fire Classifications

- The products are fire resistant and comply with the BS standard 476 part 7.

Colour

- A wide range of colors of pre painted aluminum are available.

ALUMINIUM STRIP CEILING

Metal Product Company's quality system for production and development is
ISO 9001, 14001, 45001 Certified.

Metal Product Company many years of experience of the optimal utilization of our
steel production system. We place this know how at the disposal of the building
trade both through our printed information materials and personal advice
given to the major projects
